

Benedikt Bonnmann, Member of the Executive Board

„Data are the building blocks from which knowledge is created. In today's world, it is not only a raw material, but also the key to valuable insights. At adesso, we emphasise the importance of data and AI as drivers of innovation and progress. Data is not just information - it is the basis for intelligent decisions and forward-looking developments.“

Benedikt Bonnmann (b.1985) is the Executive Board member responsible for the AI business, as well as for Customer Experience Management Solutioning, Cloud Solutioning, GenAI Solutioning and Corporate Communications.

He is also responsible for the following business areas:

- > Digital Horizontals with the Data and Analytics, Digital Experience, Microsoft and Salesforce business lines and the adesso subsidiary adesso Lakes GmbH
- > Industry Group with the business lines Automotive, Retail, Manufacturing Industry, Life Sciences and the adesso holdings material.one AG and adesso Manufacturing Industry solutions GmbH

Benedikt Bonnmann studied Business Informatics at the Mannheim Cooperative State University and subsequently completed an MBA at the Graduate School Rhein Neckar, specialising in Corporate Performance Management. He graduated top of his class from both programmes.

After working in business intelligence consulting with a focus on SAP, he founded his own consulting firm, which was acquired by adesso in 2017. There he worked at the former adesso subsidiary ARTIHNEA GmbH as Branch Manager Rhine/Main and as a member of the ARTIHNEA Management Board and as Manager of the Analytics business unit.

Since 1 January 2019, he has been a key driver of data, analytics and AI at adesso SE. Most recently, he headed the Digital Horizontals business area as Executive Director and was personally responsible for the Data & Analytics business unit.
